THE NEW YORK SALE GROUP

Formed in 1998 the New York Sale partnership currently comprises four of the most prestigious numismatic auction houses in the world, who together form a powerful international force in the numismatic industry. Original partners A. H. Baldwin & Sons Ltd (London, UK) and M&M Numismatics Ltd (Washington DC, USA and Basel, Switzerland) were subsequently joined by Dmitry Markov Coins & Medals of New York (USA) in 2000 and Ira & Larry Goldberg Coins & Collectibles Inc of California (USA) in 2014. The partnership has expanded to hold three multi-million dollar sales per year, specializing in Ancient and World Coins and Russian Coins and Medals.

Held in conjunction with one of the largest annual numismatic events (The New York International Numismatic Convention) the group holds three auctions on Tuesday, Wednesday and Thursday of the week long conference in January and has held over 33 auctions since its conception. By combining a vast array of experience and knowledge the group strives to offer the best service to their clients and customers, whether buying at the auction or as a potential vendor for the sale, any one of the partners can offer advice. Catalogues are produced to the highest possible standard and may be used as a useful reference for serious buyers and coin collectors.

Over the years the partnership has aimed to achieve the best possible prices for their vendors and undertake a marketing strategy which is proven by the excellent results achieved year upon year. In 2004 the sale of an 1825 Russian silver Rouble for US\$603,750 broke the world record price achieved for any non-US coin sold by public auction and since then lots have regularly attained prices well above estimate. In 2008 results from the Italian section of the sale made a staggering US\$1,118,400, four times the pre-sale estimate. The famous Prospero collection of Ancient Greek coins was professionally presented by the group in 2012 and resulted in numerous world records, finally realising in excess of US\$26,000,000 for the 642 lots after 8 hours of auctioneering. The printed auction catalogue will remain a major reference work for many years to come and is a 'must have' for any collector of the series.

A. H. Baldwin & Sons Ltd, London Founded in 1872, A. H. Baldwin & Sons Ltd set up their in-house auction department 'Baldwin's Auctions' in 1993 and have since expanded to hold regular auctions of all numismatic material in London, New York, Hong Kong. Baldwin's have been based in central London for over 100 years and are the last remaining traditional coin dealers in London offering an old-fashioned personal service to help you build your collection with confidence.

Our extensive library, comprising thousands of reference books, allows us to research thoroughly all aspects of numismatics from Ancient times to the present day. Today our permanent staff of numismatists include: Edward Baldwin (European, Colonial, Oriental and Russian coins), Steve Hill (English coins), Graham Byfield (Indian and Islamic coins and Commemorative Medals), Paul Hill (Ancient coins), Seth Freeman (British Tokens and Banknotes) and Julie Lecoindre (European and World coins).

The merger of Baldwin's with Noble Investments (UK) PLC in 2005, and the acquisition in early 2008 of Apex Philatelics Ltd. and of Dreweatts & Bloomsbury Auctions in 2012, has seen the company expand to become a formidable market player offering a complete package for any collector of coins, stamps, fine art and collectables. In more recent times (2013), Baldwin's has become a part of the Stanley Gibbons Group plc and is now a more powerful London Stock Exchange listed collectables retailer and 'top 5' UK auctioneer.

Baldwin's has been a member of the International Association of Professional Numismatists (<u>IAPN</u>) since 1969, and is also a founder member of the British Numismatic Trade Association (<u>BNTA</u>), the British Antique Dealer's Association (<u>BADA</u>) and individuals on their staff are members of the American Numismatic Association (ANA) and the Royal Numismatic Society (RNS).

Dmitry Markov Coins & Medals, New York

Dmitry Markov's interest in coin collecting goes back to 1972. In 1985 he graduated from the History Department of the Kiev State University (Ukraine) and received his M.A. for the thesis - "Monetary Circulation in Ancient Russia (8th to 13th cent. A.D.)". His broad interests in numismatics include Russia, Ancient Coinage especially those of the Northern Black Sea area, as well as Islamic Central Asia and Caucasus. He has published a number of research articles in these fields.

After coming to the U.S. in 1990, Dmitry Markov founded "Dmitry Markov Coins & Medals," a well-known leading firm dealing. Dmitry Markov's continuing research on Russian, Ancient and Islamic coinage makes an invaluable addition to his very extensive auction catalogs. He issued over 40 illustrated reference catalogues, as well as many other fixed price lists. Dmitry Markov Coins & Medals have been an elected member of the International Association of Professional Numismatists (<u>IAPN</u>) since 2000. Also a Life Member of the American Numismatic Association (<u>ANA</u>), American Numismatic Society (<u>ANS</u>), a Life Member of the Orders & Medals Society of America (<u>OMSA</u>), as well as many other trade and collectors associations.

Ira & Larry Goldberg Coins & Collectibles, Inc.

Founded in 1998. Ira and Larry Goldberg have more than 100 years of experience between them, having started working as very young men at Superior Stamp and Coin Company in Los Angeles, California, a prominent company founded by their grandfather in 1931.

Ira and Larry Goldberg refer to their company as a boutique auction house, because of the personal, specialized service they offer to their consignors. Their auction house provides live and online auctions of United States coins and currency, world and ancient coins, numismatics, and manuscripts and collectibles to collectors, dealers, and investors.

Ira and Larry have assembled and auctioned some of the most important collections ever sold, including the 2008 Millennia Collection, which realized \$23,000,000, a one- day, single-owner sale of World and Ancient coins; and the 2014 Missouri Cabinet Collection of U.S. Half-Cent coins, which realized \$18,000,000. In November of 2005, the Goldbergs privately sold the worldrenowned King of Siam Set for a record-breaking \$8.5 million.

Ira is an expert on United States coinage, from colonial through modern issues, and an authority on ancient Greek, Roman, and Judean coinage and antiquities, as well as world gold coins, crowns, and minors. Larry is an expert on all phases of United States coinage, as well as U.S. paper money and world gold and silver coins. Both Ira and Larry are valuations contributors to the Red Book and the Blue Book. Both belong to the Professional Numismatist Guild, of which Ira served as president and director, and both belong to the American Numismatic Association, which awarded them a Lifetime Achievement Award in 2011.

M&M Numismatics Ltd.

M&M Numismatics Ltd, Washington DC & Switzerland

Münzen und Medaillen AG (M&M) was established in Basel, Switzerland in 1941. The founders were the brothers Dr. Erich Cahn and Dr. Herbert Cahn, professional numismatists, together with several eminent Swiss collectors. M&M became well-known in the post WWII period for its monthly fixed price lists, a series which continued for over 60 years. The firm has also conducted over 100 auctions, including great collections such as the Rosen (Ancient electrum), Bally (Roman), Kohlmoos (crown-sized coins) Sutter (Italy and Sicily) and many others. In partnership with Leu Numismatik, M&M also auctioned the Kunstfrend and Niggeler collections. In the 1990s, Dr. Hans Voegtli assumed responsibility for Ancient coins and Dr. Bernhard Schulte for Medieval and modern coins. In 1996, M&M Numismatics opened in Washington, DC with Lucien Birkler as managing director. In 1997, M&M Deutschland opened in Weil am Rein, Germany, with Joachim Stollhoff as managing director. The Basel office closed in 2004, but both the American and German firms remain active. Today both companies continue the long tradition of serving collectors and look forward to serving your numismatics needs now and in the future.

In his diary, the infamous early 19^{th} Century collector and numismatic speculator, Grigori Lisenko notes that in 1810 certain Russian mint employees clandestinely struck various mules and fantasies on a medallic press. Among those were plain edge silver strikes from the Sestroretsk copper Rouble punch. These pieces came to be labelled "Pugachev Roubles" because the coin's name no ruler and the year of the punch used - 1771, coincidentally coincides with the year of the Pugachev Rebellion.

Catherine the Great was a great patron of James Tassie, ordering thousands of copies of classical carved gemstones after those in British public and private collections. These were delivered between 1783 and 1788 in specially-made cabinets, accompanied by a five-volume handwritten catalog. When James' nephew inherited the business, he continued to deal with the Russian court and his work would have been well known to Alexander I.

The Tsar's visit lasted from June 1 to 9; he met with Queen Victoria and the royal family on June 2nd. Just short of his 18th birthday, Leonard Wyon executed medals for the visit. In BHM, Brown noting mint records reports that 15 medals were struck for Nicholas on July 24, a further 12 on Sept. 13 and finally two more on Oct. 7. It is likely that these are silver examples, and whilst the medal is recorded in silver, no glazed specimens have been noted.

In the 1912 Stockholm Olympics, the Russian team came in second to last place among the 18 participating nations. One newspaper deemed it "the shame of all the Russian people." In order to prevent such an embarrassment in the future, Grandduke Dmitrii Romanov ordered the creation of a Russian Olympics as a means of practice and training. The first such Pan-Russian Olympics was held in the Kiev Sports Grounds in 1913. Located in the Lukianivka, the Sports Grounds was the first permanent sports stadium in the Russian empire (it was destroyed in WWI).

Olympics, sports, Ukrainian, even Judaic -- this very rare award medal encompasses a number of topical interests. It was made by the renowned Jewish jeweler Joseph Marshak, one of the Karl Faberge's main competitors. Called the Cartier of Kiev, Marshak was responsible in 1913 for all the Imperial gifts presented to Nicholas II. The medal above was commissioned later that year.

Chief of the General Staff (1908-1909) and Minister of War until 1915, Vladimir Sukhomlinov was disliked by the army committee of the Duma and resented by Grand Duke Nicholaevich, commander-in-chief of the Russian forces in the early part of World War I. As minister of war he opposed training innovations that emphasized firearms over edged weaponry and resisted change. His enemies and detractors called him lazy, incompetent and dishonest, but his charm and favor with Tsar Nicholas II protected his position. Maurice Paleologue, the last French ambassador to the Imperial Russia, described Sukhomlinov as "intelligent, clever and cunning, obsequious towards the tsar and a friend of Rasputin – a man who has lost the habit of work – I know few men who inspire more distrust at first sight." Ullimately, the negative opinion of Sukhomlinov placed the responsibility of Russia's military stagnation at his feet and Russia's woeful lack of military preparation at the outbreak of World War I squarely on him. That opinion, meanwhile, at the time demonized Sukhomlinor as sort of Rasputin in uniform. In March 1916, he was finally accused on charges of abuse of power and treason after some of his close associates had been convicted of espionage (on behalf of Germany). For the first time in Russian history a public jury took part in a political trial. In April, Sukhomlinov was imprisoned in Peter and Paul Fortress. In July, he was transferred to a hospital. His wife meanwhile sought belp from Grigori Rasputin and Dr. Peter Badmayer, a Buryat Mongol popular in the upper strata of Russian society where mysticism and Tibetanicism held great fascination. Rasputin interveneed on the minister's behalf with the empress. Within six months, Sukhomlinov was freed and placed under house arrest.

Although activity of construction of the was arrested again. Although acquitted of charges of treason, Sukhomlinov was found guilty of abuse of power and inactivity – leaving Russia unprepared for the Great War. Sentenced to an open-ended 'katorga', back he went to a fortress-prison. Turning 70, he was released on the first of May, 1918. Sukhomlinov emigrated to Finland, then Germany. In 1924 his 'Memoirs'' appeared. Dedicated to the deposed German Emperor Wilhelm II, and highly critical of his former Imperial colleagues, it was translated and published by the new Soviet government. Sukhomlinov himself was living then in abject poverty in Berlin. He was found frozen to death on a park bench two years later.

6.4. It is the Buyer's responsibility to obtain any necessary import, export or other licences required in relation to a Lot.

7. GUARANTEE FOR FORGERIES

7.1. Auctioneer is a member of the International Association of Professional Numismatists and in accordance with the conditions of membership, shall provide a guarantee to the Buyer for all Lots against Forgeries on the terms set out in these Conditions ('Guarantee').

7.2. For the purposes of these Conditions, a 'Forgery' means an imitation that has been created with the fraudulent intent to deceive in respect of the authorship, origin, date, age, period and the correct description does not correspond with the description in the Catalog and as a result has a value significantly less than it would have been had it been genuine.

7.3. You must notify us in writing within one (1) month of you becoming aware that the Lot may be a Forgery. The Lot must be returned to us in the same condition as at the time of sale and you must submit evidence that the Lot is a Forgery, the onus being on you to prove that it is a Forgery.

7.4. You acknowledge that:

(a) we reserve the right to re-assess the Lot or engage at our expense any expert or authority considered by us at our sole discretion to have the necessary expertise to undertake a re-assessment of the Lot;

(b) following our re-assessment of the Lot, you agree to be bound by our decision as to whether or not the Lot is a Forgery.

7.5. You shall not be entitled to a refund for a Forgery if:

(a) the grounds for claiming that the Lot is a Forgery is based primarily on a difference of opinion between us and a third party providing coin grading services;

(b) the grounds for claiming that the Lot is a Forgery is by reason of any damage and/or restoration and/or modification work of any nature;

(c) the description of the Lot in the Catalog was in accordance with generally accepted opinions of numismatic specialists as at the date of publication or the catalog indicated that there was a conflict of opinion.

(d) it has been proved that the Lot is a Forgery by applying a method that was unavailable or not generally applied within the industry of numismatics as at the date of publication of the catalog or was disproportionately expensive, in both cases as determined in our absolute discretion.

7.6. If we agree that the Lot is a Forgery then subject to:

(a) you being able to confirm in writing that you can transfer legal and beneficial title to the Lot to us or as directed by us free from all encumbrances or third party claims of any nature; and

(b) the exclusions in Condition 7.7,

then the sale of the Lot will be rescinded so that it is cancelled and we will refund the Purchase Price to you in full.

7.7. Your right to return the Lot and receive a refund of the Hammer Price under the Guarantee is your sole remedy against us, our agents and sub-contractors and/or the Seller for a Forgery. You will not be entitled to claim interest on the amount due to you. Neither we, our agents or sub-contractors nor the Seller shall be liable for costs, expenses, damages or any other liability however it arises relating to a Forgery.

7.8. In accordance with the restriction in Condition **10.2**, the benefit of the Guarantee is personal to the original Buyer and is not transferable to a new owner of the Lot or any other person.

8. EXCLUSION OF LIABILITY AND WARRANTIES

8.1. Except where these conditions expressly state otherwise, no warranty as to merchantability or fitness for a particular purpose is given to a buyer concerning a lot and each lot is sold "as is" and as shown with all faults, imperfections, errors of description (including authorship, origin, age, size, condition or value) or lack of authenticity or genuineness and neither we nor the seller nor any of our agents or sub-contractors will be liable for any damages, costs, expenses or any other liability arising out of the same whether or not caused by negligence. The auction is not an approval sale.

8.2. Except as provided in **6.3**, any claims for adjustment other than authenticity must be made in writing within seven (7) days after delivery of the goods. No Lots may be returned without our written permission. It is the Buyer's responsibility to have the Lots fully insured while in his possession. Our maximum liability under these Conditions is the amount of the Purchase Price paid by you.

8.3. Neither we nor any of our agents or sub-contractors shall be liable, whether in tort (including negligence or breach of statutory duty), contract, misrepresentation or otherwise:

(a) for loss of profits or business, depletion of goodwill and/or similar losses; loss of contracts; or

(b) any special, indirect, incidental, consequential, exemplary or pure economic loss, costs, damages, charges or expenses.

8.4. We shall not be liable to you or be deemed to be in breach of these Conditions by reason of any delay in performing, or any failure to perform, any of our obligations in the Conditions, if the delay or failure was due to any cause beyond our reasonable control.

8.5. Nothing in these Conditions excludes or limits our liability for any matter which it would be illegal for us to exclude or attempt to exclude under New York law or for our fraud or fraudulent misrepresentation.

9. DATA PROTECTION

9.1. By agreeing to these Conditions, a Bidder acknowledges and agrees that we will use personal information of a Bidder for the purpose of the Auction and ancillary matters, including providing a Buyer's personal details to any other person where necessary to enforce our rights under these Conditions.

10. GENERAL

10.1. These Conditions and the Seller's Conditions constitute the entire agreement between us and supersede all other agreements, understandings, warranties and representations concerning the subject matter hereof. All other terms, warranties and representations, express or implied by statute or otherwise are excluded to the fullest extent permitted by law. No variation to these Conditions shall be legally binding unless agreed in writing by us. 10.2. All rights and benefits granted to a Bidder under these Conditions are personal to him and may not be assigned or in any other way transferred to any other person. Any such assignment or transfer will be invalid and unenforceable against us.

10.3. A notice required or permitted to be given by either of us to the other under these Conditions shall, in the case of a Bidder, be to the last address notified to us and in the case of Auctioneer, shall be to the registered office of Auctioneer.

10.4. No failure or delay by us in exercising any of our rights under these Conditions shall be deemed to be a waiver of that right, and no waiver by us of any breach of these Conditions by you shall be considered as a waiver of any subsequent breach of the same or any other provision.

10.5. We may perform our obligations and exercise our respective rights through any of our group companies or assign our rights under these Conditions.

10.6. If any provision of these Conditions is held by any court or other competent authority to be invalid or unenforceable, in whole or in part, the validity of the other provisions and the remainder of the provision in question shall not be affected.

10.7. These Conditions, as well as the Buyer's and our respective rights and obligations hereunder, shall be governed by and construed and enforced in accordance with the laws of the State of New York. By bidding at the Auction, whether in person, by agent, Commission Bid, telephone or other means, the Buyer shall be deemed to have consented to the exclusive jurisdiction of the state courts of, and the federal courts sitting in, the State of New York.
